What's New In?

Trust Manager is a great program that has been designed in conjunction with Trust specialists to bring control and organisation to Trust management within your business. The software allows quick and easy creation and maintenance of Trust and client information in one location. Once the data has been entered, Trust Manager saves you time and money by performing many of the routine, time-consuming functions which are traditionally done by hand or a number of disconnected systems, such as document generation, event reminders, meeting summaries, and general reports. The forms within the database can be used to create letters, or deeds, or wills and a host of other Trust related documentation. You can also build forms for Trust management functions. Want to be able to find clients quickly and easily, but don't know where to start? Enter your details and then choose how you would like to receive a list of contacts. You can choose from two options. Want to find your clients? The Client Finder is an excellent tool for locating your existing clients and new prospects. It uses unique names to help you locate contacts, and will also search for clients based on your postal code and area of expertise. Simply enter your postal code and choose the type of search you are interested in. Once you have chosen your search options, click on the button below and a list of all your clients will be displayed. Want to find a new client? The Client Finders are a great tool to find new clients. You can enter your details and the email address of your clients, and the system will locate a contact based on your profile. Once a contact has been found, click on the button below to send them an email inviting them to contact you. You

have three choices for how to receive the email, including: A one-time email sent to your preferred email address at the time you enter your details. A weekly email sent to your preferred email address. A daily email sent to your preferred email address. Want to be able to manage your Trust portfolio and clients with ease? Whether you are opening a new Trust or simply managing an existing one, Trust Manager offers the best tools to keep things running smoothly. Enter your details, add your clients, and the system will do the rest. The System will: Generate the necessary documents and provide the ability to attach documents. Generate your important Trust Summary documents, plus Summaries for individual clients. Scan and file your Trust data, and provide you with all the relevant information that you need to complete Trust applications, manage client information and send out Trust reports. Manage recurring events for your Trusts. Generate a host of reports for you to view and understand where your Trust is currently at. The Trust Manager System is suitable for all Trusts, regardless of size, but if you are a
